HONGKONG, JANUARY 30TH, 1897.

A JAPANESE vernacular paper the other day indulged in intemperate animadversions on foreigners because a musical entertainment had been advertised to take place during the period of mourning for the late Empress Dowager. "This," we are told, "is not the "first occasion on which foreigners have "shown their want of any sense of shame by "taking advantage of their extraterritorial "privileges to commit lawless acts," and the question is asked, "How is it that "Ministers and Consuls suffer such things "to go on with impunity?" If the *Nippon's* language had been less violent the views expressed could hardly be controverted. In any country, whether foreigners live under a system of extraterritoriality or not, it is unbecoming that they should wound the feelings of the natives by indulging in public festivities or gaieties during a period of national mourning. The Emperor of Japan had ordered that all professional performances of music, dancing, or theatricals should cease through the whole country for a period of fifteen days. This order was of course not obligatory on foreigners, but it would have been well if Ministers and Consuls had notified it to their nationals and invited them to observe it. This would certainly have been preferable to allowing the thoughtless or unintentional disregard of it to form the subject of acrimonious comment in the native journals, for it appears that only a word was required to secure conformity. Mr. MERCK, a professional violincelloist, who had announced an entertainment to be given with the assistance of amateurs, at once postponed it when the matter was brought to his notice, and an organ recital which was to have been given at Union Church was also postponed. At the same time it must be admitted that the excess to which, according to Western ideas, the Japanese carry ceremonial observances may cause some friction when foreigners come under Japanese law. The *Japan Mail* says:—"It has come to our knowledge that a "Japanese policeman, hearing the sounds "of a violin in a foreign house on the "Yokohama Bluff a few days ago, knocked "at the door and asked that the playing "should cease." Our contemporary adds that the policeman "had no competence to "take such a step. The inmates of the "house might have sent him about his "business, might even have procured for "him a reprimand. But they did not. "They treated the constable himself with "civility and his request with respect. "That is an example of the spirit by which "foreigners are really animated." We are not so certain of the assertion made in the last sentence. Many foreigners would be inclined to resent interference with them in their own houses, more especially when the order issued by the Emperor referred only, according to our contemporary's statement, to professional performances. Assuming that such an incident occurred after the abolition of extraterritoriality and that a foreigner was thus brought into conflict with the police, disagreeable discussions might ensue. In matters of this kind, however, we must trust to the good sense of the Japanese Government and of the foreign communities to prevent any small friction that may arise on such points becoming excessive.

Mr. O'Shea, the special correspondent of the *New York Herald* and *China Gazette*, returned from Manila yesterday.

The P. M. steamer *City of Rio de Janeiro* left San Francisco for this port via Yokohama, Inland Sea, Kobe, Nagasaki, and Shanghai on the 23rd inst.

The N.Y.K. steamer *Tokio Maru*, from Australia, left Thursday Island on the morning of the 29th inst., and may be expected here on the 9th prox.

This afternoon on the Happy Valley in the second round for the Hongkong Football Challenge Shield, A Company, W.Y.R., will play D Company, W.Y.R. Kick-off at 4 p.m. Referee:—Mr. A. E. M. Read, R.A.

The efforts of the Japanese jugglers who gave a performance at the City Hall on Thursday night were not rewarded by a very large audience. The entertainment was of the General type of juggling and legerdemain.

We much regret to learn, from the Manila *Comercio*, of the death of the Rev. Father Faure, director of the Manila Observatory, which occurred on the 23rd January. Father Faure's death is a serious loss to science.

Willison's Circus opens on Monday night on the Reclamation ground opposite the City Hall. The printed programme contains many attractive items, including feats of horsemanship, gymnastic performances, aerial exercises, and tricks by Frederick's trained cats, rats, mice, and canaries. It is evidently intended to give the public full value for their money.

At the regular convocation of the Victoria Chapter No. 525, E.C., held on Thursday evening, the election of Principals and officers took place and resulted as follows:—M.E.Z., Ex. Comp. G. A. Caldwell; H., Ex. Comp. D. Macdonald; J., Comp. R. Mitchell; Scribe E., Comp. G. Piercy, Jr.; Scribe N., Comp. W. J. Tutcher; P.S., Comp. G. J. B. Sayer; Treasurer, Comp. H. M. H. Nemazee; Janitor, Comp. J. Maxwell.

In the *Courrier de Saigon* of the 20th inst. we read that the project of building a special refrigerating sanatorium in Saigon was to be considered by the Saigon Council on the following day. The journal again points out the inestimable advantages to be gained by this method of defying the changeableness of the climate. The interior of the sanatorium will contain dry air kept at one temperature, and our contemporary predicts that this example will be promptly followed by the surrounding countries, as it must result in the saving of hundreds of human lives.

The *Singapore Free Press* of the 21st January says:—The price of Raub shares continues to improve. There was, it is understood, a meeting yesterday afternoon of the local directors, Messrs. T. Scott, J. Anderson, and G. S. Murray, the mine manager, Mr. W. Bibby, being present also. A further dividend, it is believed, will be recommended to the Brisbane Board for sanction, and in the course of correspondence may become payable in March. From a consideration of the present working expenses and the fairly steady returns from the work now going on the prospect of a succession of fair dividends may be said to be assured.

On Thursday afternoon a Chinaman was found on the shore at Laichikok in an almost insensible condition. Both his arms had been blown off above the elbow and insects were eating the lacerated parts. The Customs officials reported the matter to Dr. Rennie, who saw the man and ordered his removal to the Alice Memorial Hospital, but he died before reaching that institution. He suffered his terrible injuries two days ago while fishing with dynamite in company with some other fishermen and as the accident debarred him from taking further part in the fishing expedition he was put ashore by his callous companions and left there to die.

Two Americans, Dr. and Mrs. MacIlrath, have arrived in Dhamo on bicycles. They left Chicago on the 10th April, 1895; rode to the Pacific Coast; went by steamer to Yokohama; rode through Japan; thence by steamer to China. They intended entering Burma through the south of China from Canton, but they were dissuaded from this and went to Shanghai; rode thence to Ichang, going through to Burma, partly by ponies and afterwards on cycles. Dr. and Mrs. MacIlrath propose crossing India and Persia to Constantinople, and will then travel through several European countries. They say the Chinese were very polite within reach of the gunboats, but in the interior they had much trouble from subordinate officials.

A cricket match will be played to-day, the Public Schools and Universities *v.* the World, commencing at eleven o'clock. The following are the teams:—

The M.M. steamer *Tibre*, which arrived at Singapore on the 18th January from Saigon, reports that on the 17th at 11.30 a.m. she sighted a large Chinese junk in distress, in lat. 4 deg. 11 m. N. and long. 102 deg. 51 m. E. of Paris. On boarding her it was discovered that she was from Hailam and bound for Bunka with 350 passengers. For two days they had been without water, and at that distance from land would undoubtedly have lost many of them from thirst had they not fallen in with the *Tibre*. Capt. Gregory gave them what water and provisions he could spare, but these were quite insufficient to last the junk till she got to land, and he suggested towing them. They said they had no money to pay, and seeing the evident distress of the passengers Capt. Gregory towed them to Pulau Aor, a distance of 110 miles, where they would be able to revictual. For a wonder the Chinamen evinced some gratitude and begged the acceptance of a basket of chickens as a mark thereof.—*Free Press.*

When the German mail steamer *Prinz Heinrich* was leaving the China Merchants' Lower Wharf at Shanghai on the 23rd January, and when gradually pay off the bow line with a tremendous strain on, it happened to touch the most of a native rice boat, which was lying, with many others, at hand. The owner of the boat immediately grasped an axe and with several strokes, in spite of dismayed shouts from both ship and shore, severed the line. The *Prinz Heinrich* might have swung round and drifted into the shipping with appalling results, but the danger was most fortunately averted in time. The boatman was immediately arrested, and appeared at the Mixed Court on the 25th. The damaged line was stated to be of the value of about $500; and in addition to this the gravity of the offence imparted a most serious air to the case. The evidence of the European wharfinger at the China Merchants' Lower Wharf was taken, the case being finally remanded till the 27th for the production of additional testimony.—*Mercury.*

The N.D.L. steamer *Prinz Heinrich* left Shanghai on the 29th inst. at 10 a.m., and is expected here to-morrow night.

The *Straits Time* says:—A fresh rumour reaches us that Sir Charles Mitchell is to retire from his post as Governor of the Straits Settlements, and that he is to be succeeded by Sir Henry Arthur Blake, who since 1888 has held the governorship of Jamaica. Rumour, however, has been busy for a long time past as to Sir Charles's possible removal, and it would be unsafe to place too much reliance on the present reports. Mr. Swettenham is to go home on leave in March, and it does not seem likely that the Government should then be handed to a stranger who, of course, has no local knowledge, and who would take time to acquire a useful amount of local knowledge. But, on the other hand, there are reasons in support of the theory that the rumour has some foundation in fact.

The grand military concert to be given in the City Hall to-night bids fair to be a complete success. The booking of seats has been very good and there is every probability of a large audience. The full band of the West Yorkshire Regiment, with drums and fifes, will be present, and the whole will be under the leadership of Mr. W. G. B. Bentley, A.R.C.M. The following is the programme:—

March..... "Pere la Victoire"..... Louis Ganne.
Overture:..... "Meritana"..... Wallace.
Piccolo Solo, "The Wren"..... Damare.
Three Dances.—(a) Morris (b) Shepherds' (c) Torch. E. German.
Descriptive Fantasia "The Smithy in the Wood"... Michaelis.
Cornet Solo:.. "The Lost Chord"..... Sullivan.
Ballet Music: "William Tell"..... Rossini.

[FROM OUR CORRESPONDENT.]

29th January.

On Monday the launches running between Macao, Taipa, and Colawan were racing, with the result that one of them came into collision with a fishing junk near the inner harbour. Both the junk and the launch were damaged and some of the passengers on the launch sustained serious injuries. The Chinese captains of the launches should be warned against the reckless navigation that racing gives rise to.

Some Japanese have started a glass factory here and the establishment commenced work a few days ago. This is a welcome addition to our local industries and I hope the venture may be successful.

Two gentlemen recently came over here and had an interview with the Governor in which they offered, on behalf of a company they represent, to undertake the dredging of the harbour. It is said the same company has secured contracts for similar purposes in China and Japan. They will not, however, undertake small jobs, a quarter of a million of dollars being their minimum charge. Our hopes rest on Senhor Horta e Costa to do all that is possible for the improvement of our harbour, for he undoubtedly has the interests of the colony at heart.

Permits have after all been granted to the Chinese gamblers to place their coin-coin tables in the streets from the 31st January to the 4th February. The fee for each table is $9 or $10. About two hundred permits have been issued up to the present. It is said an order will be issued on Saturday prohibiting Government servants frequenting these tables.

The Right Rev. Bishop Medeiros, who has been on a visit to Timor, is seriously ill. He is now returning to Macao.

ST. JOHN'S CATHEDRAL.

Yesterday afternoon the annual meeting of seatholders in St. John's Cathedral was held at the City Hall. The Rev. R. F. Cobbold presided and there was a fair attendance.

The CHAIRMAN said it was a matter of regret, which he was sure everyone present would share, that they had not Bishop Burdon to occupy the chair. With regard to the appointment of Bishop Burdon's successor there was no news from home, and as far as he (the Chairman) understood no definite steps had been taken to make an appointment. The delay was probably due to two causes, one of which was that the formalities of Bishop Burdon's resignation had only recently been concluded. Secondly, no doubt the death of the Archbishop of Canterbury and the appointment of his successor had delayed matters. Probably as soon as the formalities of the translation of Dr. Temple to the Archbishopric of Canterbury were completed steps would be taken to send a fit man out here as Bishop Burdon's successor. He (the Chairman) knew the authorities at home were not unmindful of the needs of Hongkong in this respect.

The accounts were then adopted.

Mr. W. G. HUMPHREYS said he would like to say one or two words about the ritualistic innovations introduced by the Chairman into St. John's Cathedral.

Hon. Commander RUMSEY rose to order. It was not competent for the meeting to discuss that question.

The CHAIRMAN said the business now was the election of the Church Body, and Mr. Humphreys would have an opportunity of making his remarks after the meeting was over.

The following gentlemen were then appointed members of the Church Body:—Sir John Carrington, Hon. F. A. Cooper, Hon. E. M. Ramsay, Messrs. T. Jackson, H. B. H. Lothbridge, and E. Osborne. Mr. McBean was elected auditor.

The regulations under which the Church Body carry on business matters were then confirmed. The CHAIRMAN remarked that they were not quite clear in the wording. As an example he mentioned one regulation which spoke of the annual meeting as a meeting of seatholders, and the people who were entitled to vote at the meeting were described as seatholders and subscribers. He did not think it was the intention of the Ordinance or of the regulations that a distinction should be drawn between seatholders and subscribers and he hoped that one of the first duties of the Church Body would be to revise the regulations with the assistance of a skilled man who was in the habit of drawing of such documents.

Mr. JACKSON proposed and Hon. Commander RUMSEY seconded a hearty vote of thanks to Mr. Wright for his kindness and labour in carrying on the duties of hon. treasurer.

The resolution was carried.

An informal discussion then took place between Mr. Humphreys and the Rev. R. F. Cobbold, after the latter had left the chair, in reference to ornaments which had been used in the Church since Christmas Day. No definite decision was arrived at in regard to the point.

THE NAVY LEAGUE AND THE NAVY ESTIMATES.

Mr. H. E. Pollock, Hon. Secretary of the Navy League, Hongkong Branch, informs us that the resolution against any reduction being made in the Navy Estimates has been signed by 462 British subjects here, excluding members of the Civil, Naval, and Military services, who have not signed.

In addition to the above, thirty-one signatures have been obtained from Canton and thirty from Amoy.

THE SOY CHEE COTTON SPINNING CO., LIMITED.

Shanghai, 25th January.

The main steam engines of the above mill were successfully started on Saturday afternoon last, by the superintendent engineer of the mill, M. M. Mutter, in the presence of a number of gentlemen, including Mr. H. Lehmann, representing the general manager. The high pressure engine was named Lehmann after the above gentlemen, and the low pressure engine Arnhold after the head of the firm of Messrs. Arnhold, Karberg & Co., the general managers. These large engines, equal to 1,500 indicated horse-power, when fully loaded were run for a little over two hours continuously without a hitch, everything working smoothly and satisfactorily. Messrs. Asa Lees & Co. of Oldham, who are the makers of the textile machinery for the mill, placed the order for the steam engine with the well-known firm of engineers, Messrs J. & E. Woods of Bolton, every part of the engines being made by this firm, who are to be congratulated upon the thoroughly good, strong, and efficient job they have turned out, and also upon the excellent quality of the material and workmanship.—*Mercury.*

THE REPORTED PLAGUE AT SINGAPORE.

A special meeting of the Municipal Commissioners of Singapore was held on the 20th January at which a resolution was passed empowering Inspectors to enter houses. In the course of the discussion Mr. Tan Jink Kim said he would like to know whether the Health Officer could make any statement which would ease the public mind. Was there any chance of the plague coming to Singapore?

Dr. Middleton, in reply, said there was a chance of the bubonic plague breaking out in Singapore. He knew of no reason why the place should be exempt, but it had never been known to flourish in tropical regions. At the same time there was no reason why sporadic cases should not occur here. The total number of suspicious cases since the beginning of the year was 22, including amongst the suspicious cases all those which had occurred two or three in one house, and those in which the symptoms did not conform to the ordinary symptoms of fever. All these cases had been seen after death, either by the Government Medical Registrars or by medical men in town. All suspicious cases were being treated as if they were cases of plague or infectious disease. Several cases had been sent to the General Hospital or the Pauper Hospital, but in no instance had there been any definite sign of plague discovered. Cases had been reported from different parts of the town by medical men, and these were being sent to Hospital and kept under observation. Three cases had been sent to the General Hospital, all of whom had died, two of whom were Chetties, but post-mortem examination showed no enlargement of the glands. The third was a Chinese and death in his case was due to typhoid fever. In the Pauper Hospital four suspicious cases had been treated, two Chetties and two Chinese. One of these recovered, and the other died, but he did not know whether any post-mortem had been made. The two Chinese were found to be suffering from typhoid fever and the enlargement of the glands was due to some other cause. In no case had anything been found which would warrant them in saying that an outbreak of plague had occurred. In the meantime the cleansing of houses was going on in Market Street, where most of the cases had occurred. Fifteen cases had been reported from Nos. 91 and 93, Market Street.

The *Free Press* of the 21st January says:—We are glad to say that the recent cases of suspicious illness in this place have been shown to be peculiarly aggravated cases of typhoid fever. The case which caused the chief anxiety was that of a girl who died at the General Hospital. The post-mortem examination exhibited the "Peyer's patches" on the intestines and the other characteristic symptoms of the disease. Of course where there is abdominal inflammation of a severe nature, the abdominal and other lymphatic glands are bound to exhibit signs of inflammatory disturbance as well. The doubt as to the precise character of the disease in this and other cases is explained by the well-known fact that in certain types of disease such as typhus, typhoid, small-pox, scarlet fever, and so forth, it often occurs that where the attack is of a specially virulent character the patient may die before the distinctive characteristic symptoms have had time to develop, at least so definitely as to enable the disease to be differentiated with precision. This is exactly what has occurred with regard to the small number of obscure cases which have set some apprehensions afloat as to their possible real character. While a day or two ago the medical authorities would not undertake to say definitely what the Market Street cases were, we understand that they are now enabled to say what they are and what they are not. They certainly are not plague, and there has not been a single case of the kind here.

The *Straits Times* of the 19th January in the course of a paragraph on the subject said:—We believe that some samples of matter obtained from patients who have recently died here under the suspicion of plague have been sent to Hongkong, and, in the meantime, the local faculty is doing all that it can to get at the bottom of a disease that undoubtedly is becoming prevalent and that does not fall within the usual types.

RISE IN FREIGHTS IN THE STRAITS.

The twenty-shilling rate agreed upon by the Straits homeward conference, came into existence on the 1st of January, subject to a rebate to shippers who confine their shipments entirely to conference steamers. To-day (19th January), the rates have been raised to 22s. 6d. for February, and 25/- for March and April. Tin has gone up from 5s. before the conference started to 12s. for February, March, and April. In outward rates there has been a rise of from 30s. at the beginning of the year to 42s. 6d. now for fine cargo (measurement) and nearly all the steamers leaving the United Kingdom have been shutting down cargo heavily. Trade seems much livelier than it has been for some time, tonnage being very scarce both homewards and outwards. It is considered doubtful, however, whether the increase of the Straits homeward rate has not been too sudden. It is a temptation to outside ships to come in.—*Straits Times.*

THE INDIAN FAMINE.

Singapore, 28th January.

We are in receipt to-day of a most important private telegram from India in which we are informed that it is estimated that at least six hundred lacs of rupees will be required for the relief of the sufferers by the Famine. Public meetings, the telegram adds, are being held at Calcutta, Madras, and other convenient centres. At Calcutta, twenty-nine thousand rupees were subscribed in one room. The Viceroy, Lord Elgin, has contributed ten thousand rupees. It is reported that the distress is appalling.

A still later telegram, received from a private source just as we go to press, says that nearly one and a half millions of people are on the relief works. The details are 662,000 in the North-West Provinces and Oudh; 160,000 in Bombay; 160,000 in Bengal; 145,000 in the Central Provinces; 60,000 in the Punjaub; 39,000 in Rajputana; 35,000 in Central India; 30,000 in Burmah, and 27,000 in Madras.

Supplementing these telegrams, we have to hand a private letter from India which deplores the delay that has occurred in the starting of relief funds. The writer alleges that the Government of India have been very negligent in failing to recognise the dimensions of the disaster, with which they have been confronted. They have, however, awakened at length, at a very late hour, he says, to the responsibilities that are cast upon them. The misery of the people over vast areas is terrible, and the call for relief is such as even India never before has heard.—*Straits Times.*

At a meeting of the Supreme Legislative Council of India on the 7th January Sir John Woodburn made a statement of the situation as regards the famine. Sir John Woodburn said: The timely rains of November and December have saved India from what threatened in the middle of November to be the greatest calamity of the present century, so widespread and severe was the drought with which the country was afflicted. From a calamity of that extent the country was preserved. Considerable areas were sown with assistance of the November rain, and the crops then sown have in a greater portion of the affected area been greatly benefited by the further rains of last week. A substantial addition to the food-stocks may now be confidently expected in April, and the worst of the possible contingencies has been avoided; but even with this saving help the situation is very grave. Nearly three-quarters of a million of people are already in receipt of relief, and it is certain that the numbers must be very largely increased before any diminution whatever can take place. The task of providing relief to those enormous numbers is gigantic, and will demand the utmost energy and circumspection on the part of the local authorities to make it efficient. The Government of India have given and will continue to give the Local Governments unstinted help in money or men; they grudge no expenditure that is necessary to meet it. On local officers, however, will fall all the real stress and strain of the management of operations. The Viceroy, after the close of Sir John Woodburn's remarks, said he had consented to preside at a meeting, in Calcutta, to consider the desirability of raising private subscriptions towards the relief of the famine-stricken.

Mr. Laurier considers that Mr. James Huddart is equally able with the Allan line to raise the capital necessary to execute the contract, and thinks it will be an advantage to have both the Pacific and Atlantic services under the same management.

The river Flesk, which flows northward from the lower lake (Lough Leane), is blocked by the bog.

The electric light works recently erected for the lighting of the town of Killarney have been stopped, and the town is in semi-darkness.

The vessel was capsized and two of those on board were drowned. Fifty others escaped with great difficulty.

THE CUBAN REVOLT.

London, 26th December.

It is reported from the United States that the filibustering vessel *Three Friends*, while off the Cuban coast with arms intended for the rebels, had a sharp conflict with a Spanish gunboat.

The filibuster landed her arms and succeeded in escaping, after a second fight, in which she disabled two Spanish cruisers by means of heavy cannonading with quick-firing guns.

London, 30th December.

Officials at Washington and also at Madrid deny the authenticity of the report to the effect that arrangements had been made with a view to mediation by the United States Government in regard to Cuba.

It is admitted, however, that parleying in that direction has been going on.

London, 31st December.

Several of the leading newspapers in Madrid have demanded that General Azcarraga be appointed commander of the Spanish forces in Cuba, in place of General Weyler, as the latter has failed to suppress the insurrection there.

The issues of the papers publishing this demand have been confiscated by the Spanish authorities, and the incident has caused a considerable sensation.

London, 1st January.

Reports from Cuba state that Rivera, who succeeded Maceo as leader of the Cuban insurgents after the death of the latter recently, has been defeated by the Spanish troops with heavy loss.

London, 3rd January.

The well-known filibustering steamer *Commodore*, which has already made several trips to Cuba from the United States in the rebel interest, has cleared at Jacksonville, Florida, with a cargo of dynamite, rifles, and ammunition for the Cuban insurgents. The Spanish Consul has protested to the United States authorities against the steamer being allowed to leave port.

London, 4th January.

Later information states that the filibustering steamer *Commodore*, which was in a leaky condition when she left Jacksonville, foundered off New Smyrna, on the coast of Florida, but all the members of the crew were saved.

London, 5th January.

It is now reported that the filibustering steamer *Commodore*, which left Jacksonville with a cargo of dynamite, rifles, and ammunition for the Cuban insurgents, and afterwards foundered at New Smyrna, on the coast of Florida, was scuttled, her pumps having been previously tampered with. Six Cubans who were known to be on board are now missing.

London, 5th January.

Previous reports of the foundering of the steamer *Commodore* stated that the crew were all saved, but according to information since received sixteen were drowned.

London, 5th January.

It is now stated in America that the filibustering steamer *Commodore* was scuttled by a traitor who was in the pay of the Spanish. One of the survivors is suspected of having assisted in the scuttling, and he is being closely watched.

It is reported in a New York paper that Stephen Crane, the well-known novelist, was on board the *Commodore*, and escaped at the last moment in a small boat.

The French Press, commenting upon the attitude of the United States with regard to the insurrection in Cuba, strongly counsels Signor Canovas, the Spanish Premier, to take measures for the pacification of Cuba before Mr. M'Kinley assumes the Presidency of the United States in March next.

THE GERMAN EXCHANGES.

London, 31st December.

The members of the Stock Exchanges of Berlin and Stettin have abandoned the practice of attending meetings of the Exchanges, as a protest against the recently passed law preventings them from "time dealing" in corn shares and mining and other shares, except by those who operate with a capital of a million sterling.

London, 1st January.

The members of the Berlin Stock Exchange having abandoned their attendance as a protest against the law recently passed by the German Parliament prohibiting time-dealing in grain and in mining and other companies having a capital under £1,000,000, are now forming free exchanges.

London, 5th January.

The members of the Stock Exchanges at Posen and other centres of the grain trade in Germany have taken action similar to that of the Berlin and Stettin Exchanges as a protest against the law passed by the German Parliament prohibiting time-dealing in grain.

IRELAND AND IMPERIAL TAXATION.

London, 30th December.

A great meeting representative of all classes has been held at Limerick, at which a resolution, similar in terms to that adopted by the Dublin meeting, was passed, declaring that the excessive taxation of Ireland was a national grievance, and demanding that the subject should receive the immediate attention of the Imperial Government.

The Earl of Dunraven presided over the meeting.

Dr. O'Dwyer, Bishop of Limerick, who was one of the speakers, advised locking to the example of Lord Charlemont and the Irish volunteers of 1782.

Lord Formoy also spoke, and strongly supported the demand for an alteration in the present system of Imperial taxation of Ireland.

Later.

Meetings of the Irish National League have been held in Dublin, at which it was determined to carry on a ceaseless agitation against the system of Irish taxation. The league is confident that the amount of taxation exacted in excess of what is regarded as a just proportion will be restored to Ireland.

Lord Longford, who was requested to convene a meeting in the county of Longford with the same object as the gatherings held in Dublin and Limerick, has refused to comply with the wishes of the promoters of the movement.

London, 31st December.

The members of the Irish party in the House of Commons intend to move an amendment on the Address-in-Reply to the opening of the approaching session of Parliament, upon the question of Ireland's financial grievances.

London, 2nd January.

In connection with the agitation for a reduction in the alleged excessive taxation in Ireland, the Earl of Jersey states that for the years 1893 and 1894 Ireland paid a sum of two and three-quarters millions sterling above the amount which is now reckoned as her just contribution to the Imperial revenue. But against this excess of taxation there was an expenditure of three and three-quarters millions for Irish purposes in excess of the amount which would be admissible if the expenditure had been in accordance with the taxable capacity of Ireland. The leaders of the new movement in Ireland claimed that that country should only pay one-twentieth of the total amount of the taxation of the United Kingdom, but he argued that owing to the excess of expenditure, Ireland was really paying only one-thirtieth.

London, 5th January.

Sir Edward Clarke, Q.C., M.P. for Plymouth, and who was Solicitor-General in Lord Salisbury's previous Ministry, in a speech delivered at Plymouth last night, spoke strongly in support of the report of the Committee on the Financial Relations between Great Britain and Ireland, which showed that Ireland paid far more than her proportionate share of Imperial taxation.

The agitation recently commenced in Ireland for a reduction in the present excessive taxation is now arousing great interest in England, and the claims put forward on behalf of the Irish people are generally being vigorously contested.

MAGNIFICENT NEW WORK
BY
WILLIAM LE QUEUX

WE have secured a Startling New Story of Thrilling Interest from the Pen of one of the Ablest Writers of the Day.

Our New Story will be of a character to excite Universal Interest, having an exceptionally strong plot, and some surprising developments.

On SATURDAY, 23rd January,
THE OPENING CHAPTERS OF
"WHOSO FINDETH A WIFE,"
BY THE
Author of "The Great War in England in 1897," "Zoraida," "Guilty Bonds," etc., etc.,
appeared in the *Hongkong Daily Press*.

MR. WILLIAM LE QUEUX is one of the foremost of present-day novelists. He has published a number of successful books, chief of which perhaps is "The Great War in England in 1897." On its original appearance this story created quite a sensation in diplomatic and military circles, and a great furore in the literary world. This is not surprising when Mr. Le Queux's qualifications are fully understood. He knows Europe as perhaps no other man does, and has, in addition, travelled extensively in the East and even with Arab caravans in the Great Sahara.

Mr. Le Queux is a master in the art of describing the secret operations of political strategy. His works are characterised by realism, ingenuity of plot, and a brilliant and polished diction.

"Dear Sir,—I am a poor hand at expressing my feelings, but I should like to thank you. Your lozenges have done wonders in relieving my terrible cough. Since I had the operation of Tracheotomy (the same as the late Emperor of Germany had) unlike him, thank God, I am still alive) performed at St. Bartholomew's Hospital, no one could possibly have had a more violent cough, it was so bad at times that it quite exhausted me. The mucous which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty.—I am, sir, yours truly, J. HULL."

THE NEW FRENCH REMEDY.

THERAPION.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1, in a few days only, removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, coughs, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains, and swellings of the joints, secondary symptoms, disease of the bones, sore throat, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION, No. 3, for nervous exhaustion, waste of vitality, and all the distressing consequences arising from early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION may be procured at 2/9 and 4/ per package, of the principal Chemists and Merchants throughout the world. In ordering, the purchaser should state which of the three numbers he requires, and observe that the word "THERAPION" appears on the Government Stamp (in white letters on a red ground) affixed to every genuine package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.
